MEMORANDUM

SUBJECT: East-West Trade Statistics

1. Attached are statistical tables on East-West trade requested by Norman Bailey of the NSC for background use by the members of the Buckley mission to Europe.

2. The statistics are from United Nations trade tapes. They cover:

(1) Imports and exports of 12 major OECD countries from and to Soviet bloc countries from 1971 to 1980, total and for the 5 major commodity subdivisions (Food, Raw Materials, Fuels, Manufactures and other goods); and

(2) A more detailed breakdown for 1980 of the most important categories of imports and exports for each pair of trade partners.

3. The OECD countries covered are: The U.S., Canada, Japan, West Germany, France, Italy, the U.K., Belgium, The Netherlands, Denmark, Ireland, and Greece. The statistics present the trade of those countries with the USSR, Poland, East Germany, Czechoslovakia, Hungary, Romania, Bulgaria, and Yugoslavia. Totals for the East Bloc exclude Yugoslavia.

4. The SITC codes corresponding to each commodity category are listed in Table 1.
